

HOW TO DRAW WOODSTOCK

1. Start with the slope of his top feather and nose, similar to a fancy "S" shape.

2. Draw his belly and add a curve on the other side for his back.

3. Add his feathers. He has points on either side of a "V" shape. Give Woodstock eyes.

4. Now he needs his feathered wings.

5. Add his long tail.

6. Draw his legs and bird feet.

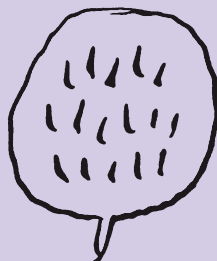

7. You're done! When coloring Woodstock, leave his center "V" feather area uncolored.

This Woodstock is from a *Peanuts* strip dated November 14, 1976.

BONUS:

Add a speech bubble and/or make him a Beaglescouter by adding a hat and backpack.
